From ideation to industrialization

ABOUT THE AGENCY

TEAM

8 designers and mechanical engineers

AREA OF EXPERTISE

Product Design | Interface Design | Graphic Design | Ergonomics | Facilities Design
Engineering | Mock-up & prototypes | Consultations | Industrialization follow-up

MULTIPLE EXPERIENCES

Products creation and industrialization for more than 30 years in multiple fields :

Consumer products | connected objects | professional products | medical field | industrial equipment | security
& defense | facilities design & street furniture | ergonomics & digital design (UX/UI)

OUR STRENGTHS

30 years of experience in product design, ergonomics & HMI, and in engineering, from CAD modeling to industrial monitoring.

Dual skills **integrated** from the start of the Company (design and engineering): our design engineers know how to take into account the designers' directives and speak the same language.

Ability to take into account the **constraints and standards** related to markets, uses and restrictive environments:

- Cost optimization,
- User access, maintenance, ease of assembly / disassembly,
- Waterproofing, impact resistance, biocompatible materials ...

Ergonomic skills on projects where people are at the heart of the problem.

Mastery of architectural, mechanical and electronic constraints.

Control of **manufacturing processes** in an economic and industrial logic.

Our team transforms your projects into industrial reality!

TOOLS

Design Team : Illustrator | Photoshop | Rhinocéros 3D | KeyShot ...
Engineering Team : Pro-Engineer (Créo) | SolidWorks

AWARDS

« Janus de l'Industrie », « Trophée du design Batimat », « Reddot design award », « Labels & Etoiles du Design »
More than 25 awards since its creation!

ECOLOGICAL IMPLICATION

Trained in Eco Conception in 2010
